EDUCATION

- 2011 **Stanford University**
B.A. Science, Technology, and Society
- 2016 **CFA Institute**
Passed Level I of CFA Program

EMPLOYMENT

Credit Karma, Senior Analyst, Strategic Analytics June 2011 - Dec. 2014

- Analyzing large data sets to create actionable business recommendations for the executive team as well as various product teams
- Cross product analysis used to predict the next best product to recommend to members based on their historical engagement, transaction activity, credit report, demographic information, and propensity model outputs

LendUp, Senior Data/Business Analyst, Data Science Aug. 2017 - Nov. 2019

- Performed data analysis using SQL and Python to drive strategic business decisions around revenue, profitability, and credit policy
- Member of the Data Science team, working closely with Product and Growth to create/monitor experiments
- Trained and improved upon proprietary machine learning models used to forecast loan volume, repayment, attrition, and ultimately customer lifetime value

Kamehameha Schools Endowment, Venture Capital Investment Analyst July 2014 - July 2017

- Member of the Private Equity and Venture Capital portfolio, overseeing 10% of the Endowment's \$12 billion globally diversified portfolio
- Performed due diligence, performance tracking, and data analysis for potential investments. Personally assisting with \$800+ million of new investments across 60+ funds in Venture Capital, Private Equity, and Distressed/Credit opportunities
- Built financial models including a public market equivalent (PME) model, an exposure model to inform new commitment pace for target asset allocation, and a tactical portfolio tool to analyze the effects of shocks on portfolio tilts, map out liquidity sources, and then produce rebalancing options, ultimately leading to a 10% allocation adjustment

American Savings Bank, Commercial Credit Analyst Aug. 2012 - July 2014

- Commercial and corporate loan underwriting
- Financial modeling, credit/data analysis, industry research, company comparisons, discounted cash flow analysis, and guarantor due diligence

Lemon Clothing, Co-Founder June 2011 - Dec. 2014

- Managed daily operations, manufacturing, website design, and inventory management
- Created and implemented digital marketing campaigns, collected and analyzed channel conversion data to improve ROI
- Established overseas manufacturing partnerships for material, prototyping, short run sampling, mass production, and distribution to 7 retail locations
- Planned and executed more than 20 community events including art shows, concerts, competitions, and 9 charity events partnering with local Nonprofit Organizations
