EDUCATION

- 2011 **Stanford University**
B.A. Science, Technology, and Society
- 2016 **CFA Institute**
Passed Level I of CFA Program

EMPLOYMENT

LendUp, Senior Data/Business Analyst Aug. 2017 - Current

- Performing data analysis using SQL, Python, and Excel to drive strategic business decisions around revenue, profitability, and credit policy
- Member of the Data Science team, working closely with Product and Growth to create/monitor experiments
- Training and improving upon proprietary models used to forecast loan volume, repayment, attrition, and ultimately customer lifetime value

Kamehameha Schools Endowment, Venture Capital Investment Analyst July 2014 - July 2017

- Member of the Private Equity and Venture Capital portfolio, overseeing 10% of the Endowment's \$12 billion globally diversified portfolio
- Performed due diligence, performance tracking, and data analysis for potential investments. Personally assisting with \$800+ million of new investments across 60+ funds in Venture Capital, Private Equity, and Distressed/Credit opportunities
- Built financial models including a public market equivalent (PME) model, a performance attribution dissection, an exposure model to inform new commitment pace for target asset allocation, and automated reporting that reduced recurring report preparation time by up to 50%
- Worked directly with CIO to develop and implement a tactical portfolio tool to analyze the effects of shocks on portfolio tilts, map out liquidity sources, and then produce rebalancing options, ultimately leading to a 10% allocation adjustment towards higher risk/growth assets

American Savings Bank, Commercial Credit Analyst Aug. 2012 - July 2014

- Commercial and corporate loan underwriting
- Financial modeling, credit/data analysis, industry research, company comparisons, discounted cash flow analysis, and guarantor due diligence

Lemon, Co-Founder June 2011 - Dec. 2014

- Managed daily operations, manufacturing, website design, and inventory management
- Created and implemented digital marketing campaigns, collected and analyzed channel conversion data to improve ROI
- Established overseas manufacturing partnerships for material, prototyping, short run sampling, mass production, and distribution to 7 retail locations
- Planned and executed more than 20 community events including art shows, concerts, competitions, and 9 charity events partnering with local Nonprofit Organizations
